He was authorized by congress in case of emergency, to direct such increase in enlistment. There has been a net increase of over six thousand five hundred in enlistment since Congress recently authorized an increase, but many more are needed, and needed w.

Will you not emphasize this need by giving special prominence Monday on the first page of your paper, to the president's order, and also by making an editorial appeal for new recruits for the navy.

The navy offers exceptional advantages to young men of stuff and ambition to serve in the first line for national defense. In this emergency you have the opportunity and privilege of performing this public service, and I am confidently appealing to you for your cordial and helpful cooperation.

THE TIMES IN WHICH WE LIVE.

We of today live in a time when history is being made every hour. Posterity will look back on these years as among the most stirring in the world's history. Three years ago a tragedy like the sinking of the Titanic shocked the civilized world. Today, reports that a transport has gone down with a thousand or so aboard, that a passenger ship has been sunk by a submarine and hundreds of lives lost, or many thousand men lost on the battlefield, command but passing interest.

The world is at war. An empire falls over night. The maps of Europe, Asia and Africa are being changed. The effects of the greatest conflict of history are felt in every country, however small and far from the battle's roar.

Whole nations have been wiped off the map and their people starve under the yoke of their conquerors. The sufferings and the sorrows the war has caused are appalling.

With hundreds of thousands in Europe the war has narrowed down to a struggle of existence. Such a conflict as this revives instincts long latent among civilized races. The horrors of the present war are beyond the comprehension of those who have not been on the battleships or in the trenches. The cruelties surpass the tortures of the inquisition. How many thousands of innocent women and children, non-combatants, have been vistims of this struggle, meeting death in an instant, hurled from an unseen enemy in the air or cocealed under the sea?

Will any good come from this terrible conflict? At this writing it appears that millions of people in Russia will be freed from the rule of a despot. What has transpired there will make every crowned head in Europe uneasy.

Generations unborn may look back on this war as we in America now look upon the War of Independence or the war for the preservation of the Union, and the sacrifices then probably seemed as terrible as those of today.

If we must become involved in this great struggle let us hope that history pronounces it worth while.

VARIOUS WAYS OF ENDING WARS

Modern history affords no precise parallel to Germany, an unvanquished warrior, asking its adversaries to discuss unspecified terms of peace. The supposition of the public, that this makes a military precedent, is hardly founded in experience. It seldom is the case that nations desirous of ending war ask a friendly neutral to act as meditator. They generally deal with one another.

For 150 years meditation has played only a little part in ending wars. Yet direct application from one belligerent to another has few precedents. The exceptions to this rule have happened when the petitioning belligerent had sustained complete defeat. The German case both differs from and rosembles the precedent.

England in 1782 initiated the end of war with America through sending separate negotiations both to American commissioners at Paris and to the French government. In 1814 it ended our second war through making known the fact that it should be glad to negotiate directly with the United States. In Napoleon's wars peace usualy started through the declaration of an armistice, but a Tilsit treaty was brought about through a personal meeting between the Russian and French emperors.

The closest approach to a parallel to Germany's present procedure was supplied by the Crimean war. When Czar Nicholas died, Czar Alexander II informed the other European governments that he desired to end the war. A conference for peace was held, but failed. Austria-Hungary threatened to ally itself with England, France and Sardinia unless Alexander accepted an Austria-Hungarian ultimatum. Emperor Alexander accepted an Austria-Hungarian ultimatum. Emperor Alexander at first refused, but a personal letter from King William of neutral Prussia persuaded him to reconsider and contributed to bringing about another conference, which terminated the struggle.

Our own civil war was ended through the federal and the confederate generals in the field arranging terms of peace directly. It 1866 Emperor Francis Joseph of Austria-Hungariy, when defeated by the Germans, had Napoleon III act as mediator. In 1871 the French republic sued directly to Germany for peace. In 1898 Spain made overtures to America through the French ambassador at Washington. President Roosevelt ended the Russo-Japanese war through sending identical communications to the representative governments and urging both to negotiate peace.

When the new government of Russia gets organized there will be no more limping in the conduct of the war, so far as Russia is concerned.

"Will they forget?" is a mighty live question with some senators.

Some prices can be jacked up some of the time, but all prices cannot be jacked up all of the time—without starting serious trouble for the jackers.

Some folk seem to need reminding that Attorney General Gregory has not the authority to order lynchings.

Prescriptions of most of the congressional doctors, if taken, would be more likely to kill than to cure the patient.

Sure, New York is the richest; but not the most liberal city in the U. S.

No war referendum is needed, simply because we have never gone to war against the will of the people.

Constitutionally, congress is our war-making power, but actually that power has only been exercised by public sentiment.

Suspected Irish leaders will have to do their leading from England.

Even at current grub prices no base ball star will have to go hungry.

Our peace societies oppose war—except with each other.

Glass of Hot Water Before Breakfast a Splendid Habit

Open sluices of the system each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism a real enthusiast on the subject of internal sanitation. Try it and you are assured that you will look better and feel better in every way shortly.

DIAMOND NOTES

'BRICK" DEVEREAUX.

Our old friend "Brick" Devereaux, who is said to have been the inventor of round baseballs is still chasing the horsehide. Father Time don't seem to be able to hold Devereaux back. GAME POSTPONED.

Owing to the sudden illness of Mrs. Leslie Blankenship, wife of one of the star players of the Santa Fe regulars, the game scheduled between that team and the Santa Fe Yannigans which was to have played at the First street grounds Saturday afternoon was postponed one week.

It is understood that arrangements are under way to stage the game the coming Saturday.

NO ANSWER.

IS ANY WOMAN CONTENT TO WEAR WINTER CLOTHES NOW?

SCORES SAY THEY'RE NOT—AND BUY SPRING FASHIONABLES ON CREDIT!

The Fashion Show has come and gone, sweeping before it the styles of the past winter season and leaving in its wake a whole city full of brand new, fresh enchanting Spring Wearables!

But springtime has come too soon for many women—at least, as far as their pocketbooks are concerned. They haven't the price of new clothes and, of course are uncomfortable, wearing their last season's suits and dresses.

There is a way for them to get around this difficulty. Hundreds of alert women in Oakland have already used credit. Hundreds more will follow their example during the few weeks remaining before Easter.

The method is simple, dependable, time-tried and wonderfully convenient. It consists simply in opening a credit account at Cherry's Clothing Shop. Then you man select your new Sports Apparel or whatever pleases your taste and, after making a small initial payment, arrange easy weekly or monthly installments to take care of the balance.

CHERRY'S have two stores in Oakland—an exclusive women's shop at 515 13th street and a men's store at 528 13th street, just across the street.

San Francisco stores are at 48 and 72 Geary street and 2400 Mission street at 20th.—Advertisement.

550 RICHMOND PEOPLE VOTE AGAINST MILITARY LAW

(Continued From Page One)

to be misunderstood as opposed to physical training and calisthenics of all kinds in the public schools.

"Present day warfare has shown that soldiers need not be exceedingly clever in the handling of arms but must have the strength to stand long watches in trenches, dig ditches and in general be accustomed to manual labor.

"Countries where compulsory military training has been tried out have repudiated it.

NOTES FROM THE PLAYHOUSES

To be as honest as this world goes, is to be one man picked out of ten thousand."

When George Kelly wrote 'Finders-Keepers" he may have had Shakespear's line in mind, but he has applied it to the woman, making it particularly applicable to the inclination of some women shoppers to keep what they find in public places. Along this line he has constructed a playlet of honesty and good morals that has an undeniable appeal. It is dramatic and also funny and yet so true to life that the situation has been met by nearly everybody. Perhaps the best proof of the popularity of the playlet is that it is one of the very few that has ever been played in vaudeville by two companies at the same time.

Mr. Kelly's own company, which he heads personally, is at the Oakland Orpheum. His company consists of Anna Cleveland and Nora O'Connor. Mr. Kelly comes to vaudeville heralded as the brother of Walter C. Kelly, the Virginia Judge a great Orpheum favorite, but he soon demonstrates that he has ability enough to stand on his own account without the fame and popularity of his big brother. As a matter of fact, the two brothers are as far apart as the poles so far as appearance and the nature of their offerings are concerned.

"MISTER 44" UNUSUAL FILM PLAY AT RICHMOND THEATER THIS EVE.

Mr. Lockwood and Miss Allison are surrounded by an unusually strong supporting cast headed by Lester Cuneo, the well known leading man, Franklin Hall, Yonda Landowska, Henry Otto, Aileen Allen, Belle Hutchison, Lee Arms, and other well known artists.

The story of "Mister 44" is an unusual one, as the name implies.

GOES EAST.

Mrs. William Keville, wife of the assistant superintendent of the Pullman Car shops leaves tomorrow far Wilmington, Deleware. She will visit in the east for several weeks returning the latter part of April.

PRESENT EAST BAY WATER SUPPLY WILL BE CHEAPER THAN HETCH-HETCHY PROJECT

That the present water supply system of the East Bay Water Company, developed to its fullest capacity, was cheaper than the Hetch Hetchy project developed by San Francisco and sold at the rate of 30,000,000 gallons daily to Oakland, Richmond, Berkeley and Alameda, was the testimony of J. B. Lippincott, noted hydraulic expert of Los Angeles, before the State Railroad Commission this morning.

The actual figures were based upon the witness' estimate that the present total water supply from all the resources of the East Bay Water Company was 16,615,000 gallons daily, which places a water rights valuation of $1,661,500 to be added to the land and structural valuations. The production cost of the water would amount to $400,000 in the case of the present system, with the added cost of $365,000 for the projected 13,180,000 gallon per day supply of the San Pablo project, or a total production cost of $765,000.

NEW PLANS.

Plans will be submitted at the council meeting this evening by the city engineer for the re-improvement of all of Garrard boulevard from Ohio street to Standoard avenue. Plans recently submitted to the council by the city engineer called for an improvement of but a ten foot section of the street on either side of the street car tracks which brought many objections. The assessments for the new improvement will be divided equally between the Santa Fe company, property owners, and street car company.

CHANGE GRADE.

Present grades established on Santa Fe avenue will be changed this evening in order to give a better approach to Front street.

been made for companies in the middle west or the east.

Just why the call should be directed to the Pacifac coast is unexplained by local guardsmen.

NEED MEN.

'Company B needs more men," said Captain Griffin this morning.

"Its better for the local fellows to join now and be in the local company with their friends than to be recruited in an outside company."

All members of Company B have been notified to report to the armory in the Nicholl city hall on the west side immediately.

CALL EFFECTS ALL.

The call for guardsmen effects everyone.

Members of the local company who may not have signed the recent federal act are under orders to report at the armory as well as those who did. The "weeding" out process will be made by the company's officers after all have reported.
